SUPERINTENDENT'S REPORT

To the School Board and Citizens of Landaff:

Your schools this year are all in excellent condition. Miss Greenwood and Miss Robinson returned to their respective positions at the Center and Ireland schools at the beginning of the year. Miss Dorothy Maloney, of Franklin, was secured for the Blue school and is doing good work there. The teachers are industrious and professional in their duties. The pupils are interested in their work. The school rooms present an atmosphere of wholesome attractiveness. Standard achievement tests given at the close of last year showed that your pupils had made progress commensurate with other pupils in the country.

Last year 58 pupils were enrolled in your schools with an average attendance of 45.5. The percentage of attendance was 90.31. This percentage is low, the average for the State being slightly above 94. This year the attendance has been very good with the exception of a few weeks at the Center school during the scarlet fever invasion. The enrollment this year is 57, with three pupils at the Nutter school in Bath, two in the elementary grades at Lisbon, and 10 in Lisbon High School.

The school board made improvements and repairs in your school buildings last summer amounting to \$375.91. The exteriors of the Blue and Center schools were painted. The Center school had a steel ceiling. New windows were placed in the Ireland school and other minor repairs were made. The school board also bought and fenced in a piece of land to enlarge the playground at the Center school.

During the previous school year the amount spent for improvements in the buildings was \$358.23. The amount requested for repairs in the budget for next year is \$300.00. The foundation of the Ireland building is in bad condition. New steps should be built there. The roof at the Scotland school should be shingled if the building is to be retained for possible future use. In last year's report I urged the installation of chemical toilets in the near future. If the continuance of one-room schools is to be your policy for a

number of years, I should recommend the installation of chemical toilets in the buildings now in use, on a plan of one each year.

The balance in the school district treasury last July was \$1,401.12. The balance at the close of the present school years is estimated at approximately \$800.00. The school board's recommendation on page 30 should be carefully studied. Its request for an appropriation of \$4,000.00 should be granted in order to maintain your schools at their present educational level.

Your co-operation in all matters pertaining to the welfare of the schools has made my work in your midst very pleasant.

Respectfully submitted,

DANA S. JORDAN.
